

B. O. COLTON, JR.
WATER COMMISSIONER
UINTAH - LAKE FORK - DUCHESNE RIVERS
ROOSEVELT, UTAH

October 3, 1959

Mr. Frank Reese, Business Manager
Office of State Engineer
Salt Lake City, Utah

Re: Duchesne-Strawberry
River System
Minutes of the 1959
Meeting

Dear Mr. Reese:

This in acknowledgement of your follow-up letter of September 30 last. Certainly no apologies are due for it and former letters but instead are due you from this end, and I express such for myself and also for Mr. Galloway.

Up to now the minutes of the meeting are missing - Mr. Galloway has been unable to locate them, either his notes or the typed minutes the lady who took them shorthand sent him following the meeting. We both know she sent the record she made (typed) because of the reference she made to the term "Hydrographer" and which caused some merriment. Galloway is out of town for the week-end. When he returns Monday I will do all possible to clear the matter up.

September vouchers are made out and I will mail them Monday morning and also enclose a copy of the budget which I prepared for the meeting and as I remember was adopted as written. Actual expense is going to run very close to the budget in some items. If you have any further direction for us in the matter we will gladly respond.

Yours very truly,

B. O. Colton Jr.
B. O. Colton Jr.
Commissioner
